*Transforming lives through the gift of vision*

# Please donate today and help change the face of vision care in Haiti forever.

Dr. Carl Dumas is an ophthalmology resident at the Public Eye Hospital in Haiti, which was badly damaged in the 2010 earthquake and has yet to be repaired. *"It's bad, really bad,"* he said, when asked about the state of eye health in his country. *"They are not having any eye care. Not at all."*

*"There's such a great need to have feet on the ground. To have consistent care here provided by local optometrists would be wonderful. That would ensure ongoing care for glaucoma patients and for people who lose or break their glasses or have acute injuries that we may not see for 9 months - until it's too late to help them."*

50% of Haiti's population is under the age of 18. Most don't have access to eye care.

## Your monthly gift will transform lives all year long!

Making an annual or monthly donation is the simplest way of making a difference in the lives of people who are blind or vision impaired simply because they don't have a pair of glasses. It's easy on your cash flow and reduces administrative costs - ensuring more of your donation goes directly to helping people see.

**\$30 per month/  
\$360 per year**

can provide an eye exam and glasses for about 70 people throughout the year.

**\$50 per month/  
\$600 per year**

can help train one teacher to implement a school screening program.

**\$100 per month/  
\$1,200 per year**

can provide an eye exam and glasses for almost 250 children throughout the year.
