

how to host a saving sight day

Designate one day to donate all exam fees collected to Optometry Giving Sight. That's it! One day, one simple ask, and your practice joins a global movement to bring vision care to people who have never had access to it. Questions? We're always here to help: **wcdc@givingsight.org**

It's five simple steps:

- 1 Pick your day. Choose any day that works for your practice during the World Sight Day Challenge (September 1–October 31).
- 2 Brief your team. Let your staff know what's happening and why. A five-minute conversation is all it takes to get everyone on board.
- 3 Tell your patients. Print and display your sign, add a note to your appointment reminders, and post on social media. The more your patients know, the more meaningful the day becomes.
- 4 Collect and track. Tally your exam fees for the day. Let your patients know that every dollar goes directly to OGS.
- 5 Submit your total. Visit givingsight.org/donate-wcdc or email **wcdc@givingsight.org** to submit your funds by November 30.
